

To Whom It May Concern, Please leave our XM radio alone!!! You have no idea how important the information is to the truck drivers who rely on the weather and traffic info. we receive from our XM. We are out on the highways in every state working very hard to deliver what everyone needs and wants and the least you can do is allow us to be prepared for whatever weather, accidents, road construction, etc. is ahead. XM also provides us with current events (that everyone has the right to know) and entertainment in the way of stories and music to help us get through the day/night. Since my husband and I installed our XM radio, we rarely listen to the CB radio anymore. That means that I don't have to listen to the filth and bad language just to find out if there is a lane closure ahead due to an accident or road construction. The road is so much more pleasant now and the time passes much quicker. Again, I can't stress enough just how important that our XM radio is to us. Thank you for your attention in this matter.

Sincerely,

Linda S. Wilson
